

Education

Massachusetts Institute of Technology , Cambridge, MA	May 2026
<i>Anticipated Bachelor of Science in Computer Science and Music</i>	GPA: 5.0
Relevant Coursework: Computer Systems Engineering, Design and Analysis of Algorithms, Digital Systems Lab, Computation Structures, Fundamentals of Programming, Mathematics for Computer Science, Introduction to Low-level Programming in C and Assembly, Linear Algebra, Multivariable Calculus, Physics II	
McNeil High School , Austin, TX	May 2022
Valedictorian SAT: 1570 ACT: 35	
Relevant Coursework: AP Calculus BC, AP Statistics, AP Chemistry, AP Computer Science A, AP Physics Mechanics, AP Physics E&M, Mobile App Development, Cybersecurity	

Job Experience

Susquehanna Software Engineering Intern	Summer 2025
- Optimized I/O batch loading strategies across multiple languages - Benchmarked firm wide systematic processes	
Citadel Software Engineering Intern	Summer 2024
- Crafted end-to-end data pipeline that is now in production - Researched and Implemented Google Cloud data storage solutions	
NASA OSTEM Internship	Summer 2023
- Worked on Simulating Airborne Cloud Sampling Research - Software Engineering and Environmental Science	
Lab Assistant , Introduction to Programming	2024
Host office hours and debug student code	
Undergraduate TA , Physics Electricity and Magnetism	2023
Teach MIT students physics principles	

Activities & Extracurriculars

MISTI Global Teaching Lab , Israel, Italy and Wales	January 2023, 2024, & 2025
- Selected to teach STEM to high school students in Israel, Italy, & Wales - Worked in labs on the campus, developed curriculum tools for students aged 7-18	
MIT Chorallaries A Cappella Group , President & Business Manager	2022-2025
- Singing group of 15 college students - Manage performances and outreach communication across the greater Boston/Cambridge area	
Summer Science Program (SSP)	July-August 2021
- Selected as one of 35 students for astrophysics modeling program - Submitted asteroid modeling research paper to the Minor Planet Center	
Computer Science Club , President/Founder	2018-2022
- Founded club focused on teaching and practicing computer science with 50+ students - Ranked top ten in 40+ coding competitions in my state (Texas)	

Awards & Accomplishments

Apple Scholar and Apple Pathways Participant	2022-present
- One of ten named an Apple scholar, recognized for achievements in computing and science - Active participant in Pathways Student Program	
Gold Level USACO	May 2020
1 of 800 students to rank Gold in National Computing Olympiad competitions	
4x AIME qualifier & AMC School winner	2020-2022
Ranked first in school level for elite national Math Olympiad and advanced to higher levels	

Skills & Interests

Technical Skills: Proficient in Java, Python, C, and C++. Project knowledge in HTML, JavaScript, TypeScript, Rust
